CONSTRUCTION WORK DESIGN MANAGEMENT

This two-part training focuses on effective design management in construction to ensure safety, efficiency, and compliance. It aims to teach participants how to integrate risk management principles into the design phase of projects. Topics include design risk management principles, legal and regulatory requirements, hazard identification, and best practices for collaboration between designers, engineers, contractors, and site managers. The goal is to prevent risks such as structural failures, safety hazards, and project delays by implementing a well-structured approach to design management.

Date

22&23th April 2025

Time

9 am - 5 pm

Fee

RM 888.00/pax

Venue

Subang Bestari, Selangor

What will you learn in this class?

Day 1 : 22th April 2025

- Session 1: Legal Requirements in the Construction Industry
- Session 2: Risk Management in the Construction Project Lifecycle
- Session 3: Introduction to Design Risk Assessment (DRA)

Day 2 : 23th April 2025

- Session 4: Design Risk Assessment (DRA) – Concept Stage
- Session 5: Design Risk Assessment (DRA) – Detailed Design Stage
- Session 6: Design Risk Assessment (DRA) – Construction Phase

Ts. Ananthan A/L V Bachu

Ts. Ananthan A/L V Bachu is currently an HRDC-approved trainer specializing in Facilities, Traffic Safety Management, Construction and Project Management, Contracts Administration, Construction Safety, Building Maintenance, and various civil engineering disciplines.
